CLAY CITY, KY., THURSDAY, MARCH 3, 1910.

NO. 9

Financial Power.

Some idea of the financial power of the American Tobacco Company may be gathered from the fact that its annual dividends are three times as much as the total holdings of the Burley Tobacco Society at 20 cents a pound. It has this year declared a dividend of 40 per cent. on its common stock, while the United Cigar Stores Company, one of its branch institutions, has actually declared one of 1,000 per cent!

Take it Steady.

Raising so much tobacco in Powell this year reminds us how natural it is when one man makes a pretty good thing of any one crop, for everybody to rush in and try to do just as he has done! The best way, though, is to take it steady. If you do venture into a strange crop, do it conservatively. The middle course is always best in all such things.

Introduced Bill for Bridge.

Congressman John W. Langley has introduced a bill in Congress to build a bridge across Red River at Vienna between Clark and Estill counties. Since Kentucky River was locked and dam-slack water comes up to this place and prevents fording.

New Grocery Firm.

J. Howard Curry, who recently retired from the wholesale grocery firm of Curry, Tunis and Norwood, at Lexington, has organized a new company and purchased the wholesale grocery of J. H. Flood and Co. Frank Brown, the well-known traveler goes with the new grocery firm.

H. T. Carters' bill permitting jailers in counties except those containing cities of the first or second class to increase the charge for feeding prisoners from 50 cents to 75 cents per day, passed the House by a vote of 70 to 6.

Enormous Burley Crop.

To give an idea of the Burley tobacco raised last year in Kentucky there has been fully 100,000,000 lbs. marketed independent of pool, and there are now 120,000,000 pounds in the pool which has not yet been sold. A larger crop than that raised last year means a ruined market is our belief.

Leading Local Paper Sold.

The Winchester Democrat, one of the best local papers in Kentucky has been sold by Messrs. Biehn & Donovan to experienced newspaper men, whose names have not yet been announced, but will soon take charge of the paper. Our best wishes go with the retiring publishers.

Died in Clark County.

Hiram Blythe died at his home at Elkin, Clark county, Friday, of pneumonia, aged sixty-eight years. His remains were brought to this county Saturday for burial. H. C. Warmouth and Oscar Mackey were nephews of Mr. Blythe.

Harbingers of Spring.

The blue birds have been singing for the past few days, and the first day of March the future frog ponds set up their boisterous noise, and this together with the warmer weather of this week warns us that Spring is nigh at hand.

Norton-Martin.

At the residence of the bride's father, J. L. Martin, of this county, Wednesday, February 23rd, Mr. Jess Norton, of Miller's Creek, was married to Miss Cora Martin, Elder J. L. Adams officiating.

We have a full line of mens and boys hats in all of the new shapes and colors. You should see them. Hardwick & Co., Stanton, Ky.

OUR SCHOOL.

We are glad to know that our pupils are studying harder than they have studied during the term, and we believe some of them are studying harder than they ever did in their lives before, each day's work strengthens us and prepares us for a better day's work "tomorrow". Our older pupils are beginning to realize that all success that makes the soul grow, that enables manhood and of which we are proud to think in old age comes from earnest effort. Our younger pupils are good workers.

It also gives us much pleasure to know that the majority of our pupils are laboring to strengthen the moral side of their nature (which is vastly the most important) as well as the mental. They are more careful and earnest in trying to keep their desks clean and nice their books, tablets, hats &c in place, and the pencil shavings and paper off the floor and yard than they have ever been before. They take more pains in trying to keep the pencil and chalk marks off their desks and the doors and walls, both inside and outside the house. There isn't so much whittling done as boys sometimes do. If there has been a letter or name cut on a desk with a knife during the term we don't know it. We often see girls and sometimes boys with soap and water and rags scouring their desks. We always encourage them in this. We know "Cleanliness is next to godliness," and that "Soap and civilization are inseparable." One boy made some long, blue marks the entire length of the building on the outside of the house. In a short time afterward he was scrubbing with ashes, water and rags to get them off. It took him perhaps ten times as long to get them off as it did to put them there. There haven't been any marks made on the house since. Our pupils are learning not to make them. When they are made we erase them. There hasn't been a window light broken in the building during the term. Our pupils are becoming more careful, quiet and polite. They are learning to take their hats off when they get to the door coming in and keep them off until they get to the door going out. They come in and go out of the house quietly. They don't want to romp and play in the house. If they do, we don't allow them to do it.

Parents, what your children do, and the way they do it and what they leave undone and the way they do that, will make them what they will be in the future. Our schools are great factors in shaping the lives of your children. Help the teachers to shape those precious lives. Adalene Hazelrigg is a prize winner in our school. We offered a prize of seventy-five cents to the pupil who would learn the Declaration of Independence by heart first. She won the prize. A few days ago we offered a prize of a nickel to the pupil who would give the quickest and best solution to a difficult problem. Our pupils all worked hard on the problem, Adalene sat up until twelve o'clock at night and studied. She gets the nickel. The pupil who studies hardest during the day and latest at night is sure to be a prize winner. Last Friday more than half a dozen of our pupils who have formed the habit of using tobacco and one of the Stanton pupils, who was a visitor at our school, publicly declared that they were going to quit the filthy habit entirely. We have confidence in them and believe they are going to do what they have said they are going to do. I told them that it would be hard for them to do. One boy said "I am going to quit, I don't care how hard it is to do." We all say hurrah for such boys! We know that they will accomplish something in life. "Twenty thousand boys die in the United States yearly from smoking cigarettes." A lecture not long ago stated the experience of a scientist in dealing with cigarettes and some rabbits. He blew one draw of smoke from a cigarette on a piece of window glass. He then opened a rabbit's mouth and forced a small quantity of this smoke held on the point of his pen-knife down its throat. The lecturer said that, no person with as much sense as a rabbit would smoke a cigarette." The scientist thought this smoke would make the rabbit sick, but to his surprise the rabbit died. He gave half the amount to another and it died. He kept on dividing the amount by two until the smoke was all gone. A dozen dead rabbits was the result. We don't allow the use of tobacco on our school grounds if we know it, because we know it is a great curse to humanity.

When men, or boys give boys tobacco they give them poison.

Boys, if you have formed the expensive, filthy and injurious habit of using tobacco yourselves and haven't backbone enough to quit, don't poison the minds and lives of others by giving them tobacco and helping them to form the same habit.

If your boys keep their promise, or even one of them should do so, and we believe they will, we know that we have done more good than we could by teaching them arithmetic. The boy that doesn't use tobacco will always learn more arithmetic than one that does. H. M. B.

Moves to Oklahoma.

J. W. White, who moved from this county to western Kansas twenty-four years ago, has sold out there and moved to Edmond, Oklahoma where he has bought property. He writes to have the Times changed to his new address and incloses \$1.00 to apply on subscription.

For Sale.

Seven room house, and five lots in west end of town. Apply to N. C. Walters, Irvine Ky.

Died in Estill.

Mr. Ed Broadbuds died in Estill county Saturday, Feb. 27, aged forty-one years. Burial at Mt. Tabor above Irvine Sunday. Mr. Broadbuds was a brother to Mrs. Oscar Mackey of this city, and she and her children were at his home when he passed away.

It will pay you men and boys to see our line of clothing. We feel sure we can suit you both in style and price. We have them both in novelty and staple colors and styles. Hardwick & Co., Stanton.

CLUB RATES.

For the convenience of our subscribers, we have arranged club rates with the following papers at prices below mentioned:

The Times and	
Courier-Journal	\$1.00
Cincinnati Enquirer	1.10
Louisville Commercial	75
Home and Farm	75

In Canada the postage rate is only one quarter of a cent a pound, recently reduced from a half cent, and second-class matter goes free within a radius of forty miles, recently increased from twenty miles. The Dominion is widely extended and sparsely settled, yet the past year shows a surplus for the postal service of \$298,700.

In the United States the second class rate is one cent a pound and Taft says at this rate the government loses \$63,000,000 every year. Is it possible that this is the worst managed government on the face of the globe? Well, it certainly seems like it.

Theodore Roosevelt is said to be bringing home several fine elephant hides, but Africa can produce no finer specimen than that which Joe Cannon has worn throughout his many frisky and glorious years in public life.

Some one must have deceived that sturdy friend of the common people, Nelson W. Aldrich in his support of a central bank; Ex-Secretary Shaw says standard oil will control the central bank.

We saw an advertisement the other day in a local paper, "How for fat people to grow lean again." That's easy for any person in these days of high prices for what we buy to eat.

There are any number of men who, while ever ready to share their troubles with their wives, manifest a strong disinclination to share their pleasures with them.

Kimbrell.

Miss Zella Sams visited Miss Mary Tuttle last Sunday.

Bro. Cusby held services at the school house here last Saturday night and Sunday.

A wedding was to have occurred here last week but was postponed until Thursday of this week.

Misses Dena and Louretta Barnett visited Misses Mary and Emma Tuttle last Saturday and Sunday.

Ray McKinney and Elzy Williams, of Virden, visited Mrs. Fannie Harris who is very sick with malarial fever.

Mrs. Fannie Harris, who has been sick with malarial fever for the past two weeks, is some better but still quite sick.

H. K. Blanton and Henry Fraley, of Montezuma, Ind., are here. Mr. Blanton intends planting out an immense peach orchard on his mountain farm near here.

Darlingsville.

H. H. Hoskin bought at Mt. Sterling one good three-year-old mare mule for \$150.

T. J. White has rented the house on Carter Reynolds place and will move there soon.

John M. Todd, of Ruckerville, was here several days last week to see his mother, Mrs. Ellen White.

Mrs. Ellen White, who has been so low with the grip and pneumonia is improving nicely under the efficient treatment of Dr. B. R. Smith.

Della Gravett, the little cripple daughter of Mr. Allen Gravett of near this city, has been in very poor health this winter, but has recently become enough improved to visit her sister, Mrs. Emma Mountz, who lives near her home.

SPOUT SPRING.

The roads in these parts are in a miserable condition.

Eld. Geo. W. McIntosh was in Irvine Tuesday on business.

The few pretty days of this week are causing farmers to begin a hustle.

Moses McKinney sold a good mare mule to Benny McKinney, of Winchester for \$150.

W. J. Christopher, Sr., has moved to Olark county with his son, W. J. Christopher, Jr.

The little three-year-old child of Alex Kirby is at the point of death with the measles and croup.

John Neal, of Waltersville, has moved to this place. Mr. Neal is a good citizen whom we heartily welcome into our midst.

Should Hustle Around.

Spring is nearly here and the farmers should hustle around in early spring, order new tools and fix up old ones. In many localities the blacksmith is overburdened in repairing farming tools just at the time when the tools are needed for spring work. Not having implements ready for work at the first opportunity means a loss of several days in getting in a crop. Let us be on hand with the season. If we have been hibernating during the winter like the frog, we had better wake up and stir around some now.

Old Churches.

The Baptist Church at Elizabethtown claims to be the oldest west of the Allegheny Mountains, being over one hundred years old. Providence church, this county, celebrated its centennial anniversary more than thirty years ago.—Winchester Democrat.

Salem Baptist Church, three miles south of this city held its centennial, fourteen years ago, being constituted in 1806, and now 114 years old, and doubtless the oldest church in Estill or Powell county.

Women's Suffrage.

The Kentucky Senate has passed the bill providing for woman suffrage in matters affecting the public school. An amendment to the measure permits only those women who have taxable property to vote. Senator Linn made two unsuccessful efforts to have the Committee on Rules put in charge of all legislation. The bill providing for a bond issue to pay the State's debt was finally killed.

It certainly is kind in Cook to let us all off so easily.

The ox knoweth his owner and the donkey his master's crib, but there are any number of men who do not know when to quit when they have told all they know.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

NOTICE.

It was ordered by the Fiscal court at its December term, 1909, that any person or persons having any claim or claims against Powell county shall file them with the county attorney 15 days before the April or October terms of said court for his examination. Said claims must be properly made out, sworn to and proven as the law directs; and that failure to file same as above stated will be a bar to the allowance of any claim or claims at that term of the court. I give this notice for the benefit of those who have or may hereafter have claims against the county and that we may shorten the terms of the Fiscal court and save the county expense. Respectfully,

M. A. Phillips, Co. atty.

OAKLAND PIANOS

Our aim is the production of a popular, up-to-date, moderate price piano, possessing that quality of tone, worth, value and durability heretofore not found in pianos selling at comparative prices.
The officers of the Oakland Piano Co. are practical piano men whose life-long experience in the building and marketing of pianos is concentrated in the development of those essential quality features that attract the careful buyer.
Our policy is to build our style of case and one grade of piano, thereby increasing our output, reducing the cost of production to the minimum, and permitting us to offer quality and utility in the "Oakland" piano, impossible to obtain in any other.
Our new factory is the best equipped and most up-to-date in the world, having an output of 6,000 pianos annually.
In tone quality in the scale, in the general construction, throughout the finish, style, workmanship—and in durability, we claim the "Oakland" piano has no equal at the price.
If your dealer doesn't handle the "Oakland" piano, write direct to us for catalogue and special introductory price.

Aches and Pains

"No remedy that I have used has been so sure a cure for pain of every kind as Dr. Miles' Anti-Pain Pills. They are a sovereign remedy for pain." MRS. H. BRADDEEN, Rapids, Maine.

Pains are in the nerves—all feeling is: headache, toothache, neuralgia, sciatica, rheumatic pains, backache, etc.—They're all there, but in different parts—It's nerve trouble.

Dr. Miles' Anti-Pain Pills relieve the nerve irritation, and the pain subsides—that's all, no derangement of the stomach, no disagreeable after-effects. That's why they are so popular with those that use them. The first package will benefit; if not, your druggist will return your money.

Moving to Missouri.

A St. Louis special says: During the last few months about one hundred families from Kentucky have moved to Northwest Missouri to take up the cultivation of tobacco. About two years ago extensive experiments proved that this section is adapted to tobacco culture. Last year 2,000,000 pounds of tobacco were raised in Platte county and about 600,000 pounds in Clay county. During the present year thousands of acres of tobacco will be cultivated and Kentucky families are moving here to teach the native farmers the best method of culture. At present Weston, Mo. is the centre of the tobacco business. Hundreds of tobacco barns are being built and many farmers are growing five to ten acres.
